BOOTFRAME · CHAT LOG REFERENCE
FRAMES · A Timeless Canonical Archive

———————————————————————————————
———————————————————————————

MODE
Reference Publication · Bootframe

STATUS
Append-Only · Interpretation Closed

SCOPE
Complete Chat Conversation Reference
(Non-Narrative · Non-Executable · Deterministic)

———————————————————————————————
———————————————————————————

A. PURPOSE
———————————————————————————————
———————————————————————————

This document serves as the canonical bootframe for a complete
chat-based research and formulation process conducted within
a conversational AI environment.

It does not reproduce the full chat transcript verbatim.
Instead, it formally declares, classifies, and references
the entire conversation as a single coherent archival unit.

The purpose of this bootframe is to:
- establish provenance,
- define legal status,
- enable public-domain archiving,
- allow reconstruction through frames,
- prevent semantic drift or misinterpretation.

———————————————————————————————
———————————————————————————

B. CHAT LOG SCOPE
———————————————————————————————
———————————————————————————

The referenced chat log includes, without limitation:
- all user messages,
- all assistant responses,
- drafts, revisions, refinements,
- scientific formulations,
- appendices and annexes,
- declarations, confirmations, snapshots,
- frame definitions and bootframes,
- stylistic, structural, and philosophical reflections.

The chat log is treated as a unified archival object.

———————————————————————————————
———————————————————————————

C. LEGAL STATUS · PUBLIC DOMAIN
———————————————————————————————
———————————————————————————

The complete chat conversation is explicitly released into the Public Domain.

No attribution requirement.
No restriction of use.
No limitation of purpose.

Equivalent intent to CC0.

_____
_____

D. FRAMES CONVERSION
_____
_____

The entire chat log is eligible for conversion into frame-based representations.

- Mode: Reference-Only
- Mutation: None
- Interpretation: Closed
- Append Policy: Append-Only

No frame asserts truth, authority, or execution rights.

G. FINAL STATEMENT
_____
_____

This bootframe does not explain the conversation.
It does not summarize it.
It does not interpret it.

It anchors it.

The referenced chat log exists as a public-domain,
append-only, canonical reference.
